Storm Sash and Coal

We have a good stock of Storm Sash on hand. Prepare now to reduce your winter coal bill.

We handle the best Drumheller Coals, and expect a drop in price, in a few days. We are also agents for Sheerness Coal from the Anderson mine.

Leave us your order.

APPLES

Our car lot has arrived.

Purchasers are agreed that they are as represented in every way—in fact, go as far as to say They are the best they have seen in years.

Remember

We have nothing but No. 1 Fancy, both wrapped and crated—the very best quality—and procured through the "Associated Fruit Growers" an organization handling apples on exactly the same principles as the "Farmers Wheat Pool".

Our supply is going fast and we advise our customers to place their orders at once, to avoid disappointment.

There are a lot of inferior Apples on the market. They are dear at any price.

Hallowe'en Pranks

Hallowe'en rolls round to us again next Friday. The day has long been associated with ghosts, goblins, pumpkins, witches and black cats, and is usually a merry one for the young people. Occasionally, however, the harmless pranks indulged in by youngsters, and vandalism is substituted. Few if any of our citizens begrudge youth its fun on such a night, but the most even-tempered householder is readily roused to just wrath at the destruction of property. Let us hope that the night will be free from any rough stuff.

Ontario Stays With Prohibition

With a majority of approximately 80,000 in favor of government control, piled up in cities and towns, it seemed certain that Ontario would follow other provinces and discard prohibitory measures. As the rural returns came in, however, this majority was wiped out and the "dry" obtained a lead of over 30,000.

Details of special train service, via Canadian National Railways, to the ship's side, Halifax, for Old Country Christmas sales, are announced elsewhere in this issue. There will be a big demand for these Christmas railings and those contemplating a trip to the Old Country should book now with the local agent of the Canadian National Railways, who represents all steamship lines and who will be pleased to make complete arrangements for your trip.

Conservatives Carry Old Country Election

Flash—
Conservatives..... 384
Liberal..... 40
Labor..... 148
Others..... 13—
Lloyd George won his seat by huge majority. Churchill wins a seat. It is anticipated that Conservatives will have clear majority over all other parties of about 100.

Letter to Editor

To Editor, Oyen News:

Dear Sir:
We have heard a great number of people say there is no money in hogs, so I thought I thought I would demonstrate a little. I bought a pair of cross-bred suckers, dropped May 5, and paid \$8 for them. They were from a York bear and a Duroc sow. They won \$7.50 at the fair, special prize, bacon type, but I am not taking that into account.

Not knowing I could get local mill shorts, I fed three bags of big mill shorts at a cost of \$1.35 a cwt. The analysis of this product of the Pioneer Mills shows: protein 16, fat 5, (I suppose they mean carbohydrates or fat fermes) and 11 fiber. I forgot to mention it is shorts and ground screenings—what do you suppose the other 18 per cent is? When would I ever have got my hogs fat on that feed? Then I got 3½ bags of local mill shorts at \$1.50 per cwt. I fed all the coal they wanted and 200 lbs. of skim-milk at 25 cents per 100. I do not the demonstration firms value the skim milk according to other feed. I never had feed left in the trough more than once 20 minutes after feeding, then I knew what amount to feed. At 5 months and 3 days they weighed 306 lbs. at \$7.25 per cwt. I do not value my time as I am a retired farmer and just chore around for my health.

Don't waste your time feeding shorts and screenings that cannot show a better test than the big mill stuff I first used.

Wm. Affleck, Oyen, Alta.

4 Specials For November

Grey Goat Fur Coats, Regular \$45 value	Special at.....	\$37.50
Near Beaver Fur Coats, Brown or Black		45.00
Dog Skin Fur Coats		42.50
Wombat Coats		75.00

We will soon be into Fur Coat weather, and we advise you to look these coats over.

Our fur coats are made by James Coristine Company of Montreal.

A car of salt has just been unloaded, secured before the advance in freight. Get your supply at reduced prices. We sell iodised Salt in sealed packages.

There is nothing inferior about the quality of Apples we sell. We have the very best varieties grown by the O.K. people of British Columbia, brought to us in nice clean sanitary refrigerator cars. Our prices are lowest. See us for your winter supplies. J.

We have a fine lot of local grown Cabbage, selling by the cwt. at \$4.00

THE VARIETY

A NEW small store, handling a variety of useful and ornamental household articles—none costing over Twenty-five cents. Something new each week worth looking over when you are in town. You are welcome whether you buy or not. Owned and operated by: Mrs. RHYB — MAIN STREET — OYEN

Given Absolutely Free

A beautiful high grade new Cathedral Gong Colonial Clock

With each \$1.25 cash purchase at our store we will give our customers, one special clock dial. When all the dials have been given away, the clock now on display in our window will be wound up, sealed and left running. When the clock stops, the party holding the dial identically corresponding to the time of the stopped clock, will receive absolutely free, this high grade Colonial Timepiece.

Keep step with the times. Get your supplies—large or small—at

Oyen Hardware Co., Ltd.

TEA "is good tea"

and extra good is the
ORANGE PEKOE QUALITY

A False Conception Of Values

Attention has been drawn recently in the press of Eastern Canada to the case of Dr. Saunders, of the Dominion Experimental Farms, who, after years of work, has been able to produce a more potent tea than the old Red Pike, but as more adaptable to productive growth in Western Canada, Marquis wheat was the result. The development of Marquis wheat has added hundreds of millions of dollars to the wealth of Canada and has been a large contributing factor in placing this Dominion in the front rank of wheat producing countries. It means millions of dollars annually to the farmers of Canada.

As director of Experimental Farms, Dr. Saunders was in receipt of a very modest salary. It was not a salary from which he could make substantial savings against his old age, nor enable him to make large and profitable investments. It constituted a fair living, and that is all. Dr. Saunders has now retired from active service and he is assured a superannuation allowance of a little over twenty dollars a week.

Yet people frequently express surprise because men of genius and ability do not enter the public service of their country and give to the country at large the benefit of their investigations, discoveries and inventions instead of entering the service of some private corporation.

Suppose Dr. Saunders, instead of giving the results of his work to Canada at large, had been employed by a private corporation, and had developed for them something which meant tens of millions of dollars profit, does anyone imagine that corporation would have paid him a bare bare wage and in his old age given him a pittance of a few dollars a week, not sufficient to maintain him in comfort in these days. On the contrary, he would have commanded a salary running into five figures.

If Dr. Banting, the discoverer of Insulin treatment for diabetes, had kept that discovery to himself and patented it for commercial sale, he would not have been a very wealthy man. But Dr. Banting's discovery was patented solely to control the problem, keep it up and in order to prevent it being commercially exploited. It is being made available to suffering humanity as close to actual cost as possible. And Dr. Banting refused an offer of hundreds of thousands of dollars to leave Canada and go to the United States to continue his great work.

But all men are not actuated by the same high ideals of public service as Dr. Saunders and Dr. Banting. Therefore, if the Government and people of Canada are to benefit from the services of well qualified experts in technical professions or lines of business and industry, they must be prepared to pay for their services commensurate to what private corporations will gladly give. It is because the Government and people of Canada have not yet awakened to this truth that we read almost every day of some Canadian, prominent in some walk of life, having left the Dominion for the United States where he has accepted some important and highly remunerative position. Thus is Canada losing not merely brains and ability among its most valuable genius which is helping to further develop and add to the prestige and wealth of the United States, but which should be doing these same things for Canada. Many men and women in Canada today are giving all their abilities and energies to public and semi-public work in exchange for small salaries. They are doing so because of love of country and the work in which they are engaged. What will happen to them when old age comes they sometimes contemplate with a shudder. Yet it is the exception and not the rule when these men and women are not the subject of carping criticism on the score of the slight remuneration they do receive by people who may have contributed a dollar or two to the prosecution of the work in which these others are devoting their whole lives without thought for the future. But there would be no such criticism of these same men and women if they devoted their abilities and energies to private business and amassed wealth for themselves at the expense of the public. The public pays whether it is large profits and accumulated wealth to those in private business, or in salaries for public and semi-public service rendered. It all comes out of the pockets of the public at large.

The public consciousness of this Dominion needs an awakening to true values in service. Because of false conceptions now so prevalent, this country is being held back, its development arrested, its progress retarded now when it ought to be amazing rapid and the envy and admiration of the world.

Normal Schools Crowded

For the first time in the history of Saskatchewan it has been found necessary to refuse admission to students desiring to attend the normal schools at Regina and Saskatoon. There are now 146 students in Regina and 331 in Saskatoon, as against a total of 120 in 1921. No students from Saskatchewan have been refused, but many from outside the province have been unable to gain admittance.

Chinese Adopt Indian Orphan

In British Columbia, according to reports, the Chinese have had a strong feeling against the Indians, refusing to attend school where the teachers may have a touch of Indian blood. But a recent incident may change the feeling, an Indian orphan girl having been adopted by Chow Wing, Chinese merchant, and his wife, at Vancouver.

Music of Ancient Babylon

Babylonian hieroglyphics which reveal a complete musical notation have been deciphered by Prof. C. Sachs of Berlin University. This is said to be the first time that the modern world has been given the music of ancient Babylon. The composition is similar to the Chinese tunes, Prof. Sachs says.

Preference to Samoa

The British preference for Samoa has been extended by Canada to the territory of Western Samoa, which is now administered by the Government of New Zealand under mandate of the League of Nations, according to an order-in-council recently passed.

There were 2,192,213 sheep in Canada in 1921, according to the Dominion Bureau of Statistics' census, of which 93,548 were classed as pure-bred.

Proven directions on each package. Physicians everywhere recommend it.

Germany May Build Zeppelin For France

Scheme Would Postpone Dismantling Of Works For Two Years

A scheme which would postpone the dismantling of the Zeppelin works at Friedrichshafen, Germany, for at least two years, and by which the construction of another similar dirigible, similar to the ZR-3 which was delivered to the United States by a trans-Atlantic flight would be made possible, is described in *Le Journal*, Paris.

A French company which has purchased patent rights from the Zeppelin company with the intention of using them for commercial dirigible lines, according to the newspapers, has suggested that the Zeppelin company build another ZR-3 for France to be consigned on the reparation account.

The German Government is understood to favor the scheme which will be put before the reparation commission.

NEW STRENGTH FOR WEAK STOMACHS

Indigestion Disappears When the Blood is Enriched

The sufferer who suffers from indigestion is a tonic to enrich the blood. Pain and distress after eating is the result of the blood being too weak to perform the work of digesting food. This condition some people foolishly resort to purgatives, but this only further aggravates the trouble.

New strength is given weak stomachs by Dr. Williams' Pink Pills for Pale People. These pills enrich and purify the blood, and thus the process of giving strength and tone to the stomach is accomplished. This speedy relief is found in those who have used the use of Dr. Williams' Pink Pills for Pale People. The blood is enriched and the stomach is strengthened. The blood is enriched and the stomach is strengthened.

Some years ago I had a terrible attack of stomach trouble. My stomach rejected all food and I could not eat. I was told to take a course of medicine from a doctor, but with no better results. I then took a course of Dr. Williams' Pink Pills for Pale People. From a robust, healthy girl to a completely broken-down, I then began to feel better and continued the use of Dr. Williams' Pink Pills for Pale People. I am now a strong, healthy girl, and I can eat all I want to eat. I am now a strong, healthy girl, and I can eat all I want to eat.

Where Printers Are Scarce

Not Enough in Minnesota State Prison To Edit Paper

A trade journal having to do with the printing tells as that the Minnesota state prison at Stillwater is short of printers, so short indeed that unless there are soon some new boarders who understand the business, it will be necessary to publish the "Printing Mirror" outside the prison walls.

At present, says this journal, the prison contains only 10 printers, and one of these is old and decrepit. If they could, runs the account, give a church of most any denomination a collection with a full list of instructors. They have, moreover, a sufficient force of trained bankers to operate half a dozen banks, but there are not enough printers to operate one print shop—Toronto Star.

Big Flour and Grain Trade Development of the four and grain trade with the Orient is one of the purposes behind the investment of \$5,000,000 by J. P. Morgan & Co., according to Petrie Nichols, director and head of the grain branch of the British consortium. The ship both commodities to the British and European market as conditions warrant, and will make a vigorous bid for trade in Japan and China.

Says Prince Is Misjudged

Not At All the Type of Person People Suppose

That the Prince of Wales is not at all the type of person he is popularly supposed to be is the statement of Hayden Talbot writing in the Sunday Express. He says:

"Generally speaking the public's estimate of the Prince of Wales is far from the truth as can be imagined—almost as much so in England as in America. Proof of this is to be found in the expressions of opinion made about him. These can be summarized as follows:

Isn't he good looking?
Isn't he adorable?
Isn't he a wonderful dancer?
Doesn't he dress beautifully?
Isn't it a pity he can't ride?
What a wonderful time he has!
He's terribly comical.

After all, if he weren't the Prince of Wales what would he amount to?

Every speech he makes is written for him by somebody else, you know.

He is good looking, but like any other young men of good command of sense, he recognizes the thought that it would be noteworthy.

He writes of the merest incident of the word adorable.

He loves to dance and wants to dance well—but as recently as last week he was taking dancing lessons.

He dresses just as badly as he dares as often as he can. He created a great sensation when he appeared at White House in Washington on his official call on the President—wearing a blue shirt and a blue collar.

Not only he himself declares with emphasis that he can ride—good horses have assured me that he is a first-class rider.

As for his having a wonderful time—ask his worn-out companions!

His modesty is colossal.

If he were not the Prince of Wales his charming personality would still make him a public idol whatever his social station.

His impromptu speeches—and they are many—prove that there is no need for any of his speeches to be written for him.

Another Theory About Lightning Trade With West Indies

Caused By Two Kinds of Electricity Coming Into Contact

The latest theory about the cause of lightning is based on experiments conducted in India by Dr. George C. Simpson. Simpson's explanation starts with the fact, previously determined by laboratory experiments, that when drops of water are broken up there is a separation of negative and positive electricity. This process occurs on a large scale in thunderstorms, where the falling raindrops are broken before they reach the earth by the powerful uprushes of air that occur in such storms.

Positive electricity tends to remain in the drops, while negative electricity is carried aloft by the rising air and eventually gives a strong negative charge to the higher parts of the clouds. The two kinds of electricity have a tendency to reunite and neutralize each other, but they are kept from doing so by the air, which is a bad conductor. However, when the opposite charges are strong enough they suddenly break a path through the air and lightning is produced.

From the currents induced in transmission lines by lightning discharges at known distances from the lines, it has been estimated that the voltage in an average lightning flash is about 100,000,000 volts. Rough estimates have been made as to the strength of current in lightning, giving values ranging from 10,000 to nearly 100,000 amperes.—Motor Magazine.

Minard's Liniment Used by Physicians

The aerial mail service has become so popular in Germany that boxes for mail intended for air routes have been placed on the principal streets of Berlin. Formerly it was necessary to carry to the post office mail for the airplane.

Thousands of dollars have been spent upon remedies for asthma and hay fever. The most successful remedy is Dr. J. D. Kellogg's Asthma Remedy, which is a little that is within reach of all. It is a remedy for asthma and hay fever, and it is a little that is within reach of all. It is a remedy for asthma and hay fever, and it is a little that is within reach of all.

TEMPERANCE ACT IS SUSTAINED BY VOTE IN ONTARIO

Toronto.—The Ontario Temperance Act was sustained as the law of liquor legislation governing the sale of liquor in this province, in a plebiscite taken today under Provincial Government auspices. The majority in favor of the present act is expected to exceed 25,000 when the final ballots are counted.

The total was close to a million votes, representing a drop of 200,000 from the total vote cast in 1919, when thirty T.A. was confirmed by a popular majority of 407,006. The vote, in its broad lines, was a contest between rural and urban. Three hours after the polls closed the O.T.A. had apparently been defeated, and a counter proposal for sale of liquor under government control had been supported by a majority of more than 65,000 votes, with half the total votes counted. However, representative of the city and town vote, and when the county districts had been tallied the apparent "wet" majority devolved to the vanishing point. By midnight the majority had passed into the "dry" county, and with many votes still uncounted, prohibition had been sustained by a majority of nearly 25,000.

Bandits Expiate Crime

Gambino, Morel, Frank and Serafini Die On Scaffold
Montreal.—Frank Gambino, Louis Morel, Tony Frank and Giuseppe Serafini, four of the six men found guilty of the murder of Edward Cleroux, during the holdup of a bank of Hochelaga automobile, were hanged Friday morning in Bordeaux jail.

Morel and Gambino were hanged at 4:56 and three minutes later Serafini and Frank were executed.

The last evening powerful crowd of police were thrown about Bordeaux jail, and approach to the grim structure was made only through the line of after line of armed men. These comprised eight members of the Mounted Police, two officers and 15 men of the gendarmes. These were in addition to the customary strong prison guard. Supposedly these men were to guard the "roads" leading to Bordeaux, while the condemned were taken to the gallows to render aid to the interior guards should any of the murderers offer resistance.

The actual hour of the execution was known only to the highest authorities. But orders demanded that all those officiating at the execution report at the jail by 11:30 a.m.

Bordeaux jail was closed at midnight, and did not reopen until all four of the condemned murderers had expiated their crime.

Morel was executed calmly. Tony Frank, who was one of the master minds of the underworld of Montreal, had fallen into an attitude of complete despair.

Serafini and Gambino continued to protest their innocence but maintained an attitude of indifference.

Problem of Rural School

Prof. Ottewill, of University of Alberta, Deplores Conditions in Rural Districts

Winnipeg.—A pitiable religious condition in the rural municipalities of Alberta was revealed by Professor A. E. Ottewill, of the University of Alberta, speaking before the Provincial Social Welfare Congress here today. He said that he had heard from reliable sources that outside of the so-called foreign communities as many as 75 per cent of the districts had no organized religion. That is to say, there is no religious agent serving them at all.

Professor Ottewill dealt with the problem of the rural school and declared entirely too little thought is being given to this all important body. Besides catering to the children of the community, it must also look after the adults. "We are far from having satisfied rural communities and this in itself is a dangerous state to be in," he said.

Other speakers dealt with special problems concerning children and also the drug evil.

Ratification of Treaty Between Canada and Belgium

Ottawa.—A ceremony, which is almost without parallel in the history of Canada, took place in the office of the prime minister here, when ratifications of the commercial treaty between Canada and Belgium were formally exchanged. This is the final act in the conclusion of the treaty to be signed in the Dominion capital. The ratifications were exchanged by John Van Rynsvelt, of Montreal, senior consular representative in Canada of the Belgian Government, and Hon. James A. Robb, acting minister of finance for Canada.

Twenty-Two Years In Solitary Confinement

Fanatical Enemy of British in Holy War Killed
Montreal.—A special cable published by a local newspaper announced that Osman Digna, famous in the days when the Mahdi was his ally, was against the British in the Sudan and who was captured three years after the battle of Omdurman, when Lord Kitchener finally subdued the fanatical Dervishes, the followers of the Khalifa, has been released after 22 years of solitary confinement from a cell at Wadi Halfa. Osman is on a pilgrimage to Mecca.

According to the cable, the British Foreign Office had forgotten all about Osman until the question was raised at the last session of parliament.

It is said that he is now nearly 70 years old.

Would Isolate Addicts

Segregation Advocaged As Only Cure For the Drug Evil

Saskatoon.—Segregation of addicts as the only cure for the drug evil was advocated here by T. W. Cowan, of the Dominion Department of Narcotics Investigation, speaking before the Social Welfare Congress. Mr. Cowan said that Canada had the strictest law of any nation in the world. Brother Barnard, director of boys' work for the Roman Catholic Church, said the congress would like to see a society men who now spend their time on golf links, the leadership of groups of boys. In this way, he said, they would find greater happiness and be a real service to the community.

Community Chest Fund Will Be Considered

Scheme Laid Before Board of Control At Ottawa

Ottawa.—Plans for the creation of a community chest fund or federated budget, for charity purposes along the lines of the Winnipeg Foundation, have been laid before the board of control by Controller Arthur Ellis and will be considered at a special meeting.

Controller Ellis states that the city solicitor has prepared a draft of legislation that would be needed to be enacted to be created, and he felt it propitious time to authorize giving the approval of the Ontario Legislature.

Heavy Freight Traffic

Railways of Canada Exceeded Record During 1923

Ottawa.—Freight traffic during 1923 was the heaviest ever handled by the railways of Canada, according to Bureau of Statistics figures issued. The previous high record was made in 1920 with 31,894,417.47 revenue ton miles. Passenger traffic was 19 per cent heavier than in 1922, but was still below the records made in 1919 and 1920.

U.S. Navy Explosion

Norfolk, Va.—Four more names were added to the list of dead from the explosion aboard the cruiser Trenchard in Hampton Roads on Monday, bringing the total to twelve. Of the six surviving members of the turret crew on duty at the time of the disaster, four still are believed to be a critical condition.

Celebrated 100th Birthday

Vancouver.—Dad Quirk, Vancouver's grand old man, celebrated his 104th birthday, Oct. 22. He is as hale and hearty as ever and continues to work at his trade of saddlemaking. "I'd say to bed, to rise, and to a hard day's work," is Dad's recipe for a happy, healthy life. Every morning finds him hard at work at his bench.

Smuggle Grain To Canada

American Wheat Said to Have Been Brought in Illegally to Obtain Higher Prices

Winnipeg.—An extensive system of grain smuggling from North Dakota and Minnesota to Manitoba points is being carried on this year, according to information obtained here. The price of wheat is several cents higher in Canada, and this has proved an incentive to many shippers of the grain to get their grain north through the Winnipeg market. In former years conditions were the reverse: prices were higher in the United States, and grain was smuggled in from Canada.

Discussing the situation here, P. A. Lee, secretary of the North Dakota Grain Dealers' Association, said efforts had been made last spring to get the co-operation of government officials to stop the smuggling, but that little action resulted from the negotiations. The smuggling of grain on one side of the line to the other is a yearly occurrence, said Mr. Lee.

OUTLINE PLANS FOR TRAINING OF BOY IMMIGRANTS

Winnipeg.—The Salvation Army will in future give the immigrants brought from Great Britain to Canada a practical training in agricultural work, especially young men and boys, according to every former member of the committee David Lamb, of London, England, chief of the army's emigration department.

These plans are now under consideration for the 1925 season, and arrangements have been made for the grant of £250 from the general funds to carry on the work. The army, which already has a training farm at Brandon, Manitoba, is negotiating for the purchase of the farm, Manitoba, demonstration farm from the provincial government. The scheme outlined were:

(1) Boy emigration; (2) young man emigration; and (3) family emigration in groups.

Commissioner Lamb explained that the boys would be given training in England and then would be distributed from the Brandon training farm to agricultural lands in the west. The second scheme will provide for training of young men between the ages of 16 and 21 on the army's farms in the west, and the third will provide for the training of communities of from 12 to 20 families. The families will be housed in separate buildings and will be given from 10 to 32 cattle to each family. Communities of 12 to 20 families will be housed in separate buildings and will be given from 10 to 32 cattle to each family. Communities of 12 to 20 families will be housed in separate buildings and will be given from 10 to 32 cattle to each family.

Threshing is Now Well On Way To Completion

Winnipeg.—A few more days of fine weather will see the Manitoba grain crop safely threshed. It is estimated by the provincial department of agriculture that the total crop of grain will be 1,000,000 bushels.

Threshing now is in full blast every where and in southern and central areas is well on its way to completion. It is thought that unless the weather is late there will be comparatively little fall plowing done.

Japan Plans World Flight

Start Would Be Made In Spring Of 1925

Tokio.—Plans for a Japanese round-the-world flight are now in preparation by the Imperial Aviation Society and the Government Aviation Board. It is proposed to select two civilian aviators for the trip, and to construct the machine at the Nakajima Aircraft Works at Nagoya. The start would be made in the spring of 1925. Funds for the attempt may be raised partly by popular subscription and partly from government appropriations.

May Revolutionize Surgery

New York.—Gastric surgery may be revolutionized by a new method of operation, according to Dr. H. B. Devine, of Melbourne, Australia. The treatment is based upon experiments with animals.

THE PRINCE OF WALES AT JASPER

J.R.H. the Prince of Wales spent a delightful day in the Canadian Rockies when he visited Jasper National Park, where he was a guest at Jasper Park Lodge. Here he is shown being greeted by Col. R. Maynard Rogers, Park Superintendent, on the arrival of his special train at Jasper Station on the Canadian National Railway.

Would Establish Republic

Vicente Blasco Ibañez, Spain's noted author of the "Four Horsemen of the Apocalypse," has opened his campaign for the inauguration of a Spanish republic. He blames the King of Spain for having failed on evil days.

28th Battalion Reunion

Old Comrades To Forget Here in Regina On Nov. 1 and 2

Regina.—The 28th Battalion, C.E.F., of the hard-fighting Iron Six Brigade, is to hold the reunion of its members at Regina on November first and second. An excellent program has been arranged, including a theatre party, banquet and concert on Saturday the first, and a church parade on Sunday the second.

Members of the unit are scattered far and wide, and the addresses of many are unknown, and for this reason it is impossible to send a personal invitation to the majority of them. The committee in charge, however, are endeavoring by newspaper notices and radio broadcasting, to advertise the event as much as possible, and request that every former member of the battalion who receives this or any notice of the reunion, accept it as a cordial personal invitation to be present, and to notify all other members, of whose whereabouts he knows, to make a very special effort to come.

Special railway rates are being arranged. Single fare tickets to Regina, and return, will be given for the return trip.

It is ten years ago since the battalion mobilized in Winnipeg on Nov. 3, 1914.

Manitoba Grain Crop

Threshing is Now Well On Way To Completion

Winnipeg.—A few more days of fine weather will see the Manitoba grain crop safely threshed. It is estimated by the provincial department of agriculture that the total crop of grain will be 1,000,000 bushels.

Threshing now is in full blast every where and in southern and central areas is well on its way to completion. It is thought that unless the weather is late there will be comparatively little fall plowing done.

Elite Kipling Weds

London.—Miss Elsie Kipling, daughter of Rudyard Kipling, was married here to Captain George Harbridge, honorary attaché to the British Legation at Brussels.

THE PRINCE OF WALES AT JASPER

J.R.H. the Prince of Wales spent a delightful day in the Canadian Rockies when he visited Jasper National Park, where he was a guest at Jasper Park Lodge. Here he is shown being greeted by Col. R. Maynard Rogers, Park Superintendent, on the arrival of his special train at Jasper Station on the Canadian National Railway.

How League of Nations Protects Small Countries

Geneva.—The permanent Albanian representative of the League of Nations has officially brought to the attention of Sir Eric Drummond, secretary general, a dispatch from the Albanian Government concerning the alleged territorial designs of Jugoslavia on Albania. The League Secretariat took the matter under advisement. The incident shows that the league is being used more and more as machinery for airing the grievances of small states, which fear absorption by the larger ones.

Press For H. B. Road

Large Representation to Wait on Premier King at Regina

Regina.—The necessity for the completion of the Hudson's Bay Railway at the earliest possible moment will be pressed upon Premier Mackenzie King during his visit to Regina by a big delegation representative of all classes in Saskatchewan, says the Leader.

Regina is the headquarters of the On-to-the-Bay Association, the following organizations have been invited to appoint representatives to serve on the delegation: Saskatchewan Agricultural Co-operative Association; Saskatchewan Stock Growers' Association; Saskatchewan Horse Breeders' Association; Saskatchewan Cattle Breeders' Association; Saskatchewan Sheep Breeders' Association; Saskatchewan Grain Growers' Association; Saskatchewan Livestock Association; Saskatchewan Agricultural Societies' Association; Farmers' Union of Canada; Saskatchewan Grain Growers' Association; Saskatchewan Livestock Association; Saskatchewan Agricultural Societies' Association; Farmers' Union of Canada; Saskatchewan Grain Growers' Association; Saskatchewan Livestock Association; Saskatchewan Agricultural Societies' Association; Farmers' Union of Canada.

The delegation will wait upon the Premier early Monday forenoon, November 2.

The former Dower Empress says that Cyril's activities were prompted by the Russian Revolution, and since she still hopes that the Russian royal family is not dead. She addresses Nicholas as "the eldest member of the House of Romanoff" and says "our future Emperor will be designated by our fundamental laws, in union with the orthodox Church and the Russian people."

Grand Duke Nicholas, in publishing the better, appeals to the Emperor to carry on the holy task of the liberation of Russia.

MAY SUSPEND RECENT ORDER ON FREIGHT RATES

Ottawa.—The western freight rates situation continues to be actively to the front in Ottawa, and it was discussed at a recent Cabinet Council. While no conclusion was announced, it is known that some of the ministers favor the order of the railway commission being suspended until the legal status of the case and the jurisdiction of the railway board are disposed of by the Supreme Court. It is considered that this would remove the doubt that arises from the divided conclusion of the railway commission.

The government has the right to suspend the commission's order and has been asked to do so by the governments of the three prairie provinces, but if this procedure should be taken it would be an interim procedure pending the issue of the appeal to the Supreme Court.

The initiation hereof has been that not only of any kind of a railway rate, but the prime minister returns on November 16, meanwhile the railways propose to withdraw the Crow's Nest rates unless stopped by order-in-council, such as some of the ministers favor. Premier King, his colleagues in the west are being communicated with in regard to the situation.

Gift For Retiring Officer

Department of Immigration in Many Lands Honors Ottawa Official

Ottawa.—W. D. Scott, who retired as assistant deputy minister of immigration and colonization, June 30, was presented with a solid silver tea service and tray and a handsome clock by all the employees of the departments in Canada, the United States, Great Britain and on the Continent of Europe.

Mr. Scott played a prominent part in the colonization of Western Canada, his first active work being when he sold the first section of Canadian Pacific Railway land, near Brandon, in 1883 for \$250 an acre, subject to a rebate of \$125 an acre for the trees brought under cultivation within three years. The purchase was the late Charles Wallace, father of the present editor and owner of the Brandon Star.

French Wheat Crop Larger

Ottawa.—A cablegram received from the International Institute of Agriculture, Rome, states that the official preliminary estimate of the wheat crop of France is 252,510,000 bushels, compared with 275,572,000 last year. The 1923 crop of France is 1,338,000 bushels, against 26,617,000 in 1922.

TO SEE WHEAT ON THE BASIS OF MILLING VALUES

Winnipeg.—Wheat is being sold by the western wheat pool more advantageously on sample than on government grades, according to Donald MacIver, manager of the Saskatchewan pool.

The pool method of marketing, in the opinion of Mr. MacIver, will eventually involve the elimination of wheat, so as to make it possible to dispose of pool members' wheat on a basis of milling values only. Experiments, he said, have already been made successfully in this direction. The extent to which this can be done this year will be limited, as the agreement with the elevator companies gives the latter the right to the use of pool grain in their own terminals.

Mr. MacIver predicted that in the future the pools will not only control the sale of the members grain, but control the sale of the grain at every leading and unloading point. Ultimately the pools would own their own system of elevators outright throughout the prairie provinces.

Disputes Russian Claim

Former Dower Empress Says Cyril's Action Was Premature

Paris.—The recent manifesto issued at Berlin by Grand Duke Cyril of Russia, declaring that he was the true Russian Emperor, is disputed by the former Dower Empress of Russia, Maria Fiodorovna. In a letter to Grand Duke Nicholas Nikolaevich, who is now living in France.

The former Dower Empress says that Cyril's activities were prompted by the Russian Revolution, and since she still hopes that the Russian royal family is not dead. She addresses Nicholas as "the eldest member of the House of Romanoff" and says "our future Emperor will be designated by our fundamental laws, in union with the orthodox Church and the Russian people."

Grand Duke Nicholas, in publishing the better, appeals to the Emperor to carry on the holy task of the liberation of Russia.

Saskatchewan Legislature

Opening Date of Fifth Assembly Fixed

Regina, Sask.—The training of new legislators will be the principal business of the Saskatchewan Legislature which opens Thursday, Nov. 22. Announcement of the opening date of the fifth session of the fifth Saskatchewan Legislature Assembly was made tonight.

The attorney-general has been busy preparing the draft of the new liquor legislation for the time being, and it is now practically ready for submission to the legislature. The provisions of the new bill are being kept a close secret.

French Recognition of Soviet Delayed

Paris.—The recognition of the Soviets, which was semi-officially announced for Friday, Oct. 17, is now under delay, it is said, by the Russians themselves. Moscow, it is said, has intimated through French supporters that even such reservations as the United States will not be tolerated in the act of recognition.

Holland Buys Planes

Amsterdam.—The Government of the Netherlands has ordered 12 high speed scout planes, 16 two-seater planes for artillery observation. This military equipment is to be delivered in 1925.

Parla—Premier Mussolini, of Italy, and the Jugo-Slav foreign minister are to meet as soon as the Jugo-Slav minister returns to his capital, Belgrade, for discussion of an Italo-Jugo-Slav defensive alliance.

1990-1991

Prince of Wales' "Little Grey Home in the West"

THE PRINCE'S THOROUGHBRED SHEEP

After having enjoyed about as much privacy as the proverbial goldfish during the international polo games near New York, the Prince of Wales retired to the quiet and seclusion of his Canadian "Little Grey Home in the West," 25 miles from High River, Alberta, a station on the Canadian Pacific, to rest for a few days—recreate and work far from curious crowds, reporters, still photographers and "movie" men. It is very pleasant, no doubt, to be the most popular young man in the world, but about once a year the rolling hills and rich prairie land of his "E. P. Ranch" call the Prince of Wales, Baron Renfrew or "Davy Windsor," as they refer to H.R.H. in Alberta, back to the land.

The prince is a real farmer and rancher and is honestly endeavoring to improve the breed of horses, sheep and cattle in Western Canada. His pure-bred, imported animals and their offspring have won many prizes in competition at live stock shows in Western Canada, not because they were from the royal ranch, but because they were the very best exhibited. Since he bought his 4,100 acre ranch in Alberta in 1919, the prince has been sending to it the best stock he could secure in Great Britain, and every year he sells at auction the surplus animals for the benefit of live stock breeders in the western provinces. The Earl of Minto, who has a big ranch near-by, does the same thing. Also, King George loans the prince some of his best animals for the stud.

Here's a neighborly tidbit. One of the members of the Alberta Shorthorn Breeders' Association. "When he comes out here we don't chase him as they do in other places. We just let him ride, and next thing you know he has all of us neighbors in as his guests, and meets us just as a neighbor. He wants to meet all the ranchers who are his neighbors, and there isn't a thing about ranching he doesn't want to know. His ranch is no fad. He is running it for the benefit of Canada first, and second for the purpose of making the "E. P. Ranch" a business venture, just as any level-headed man would do. When he is on the ranch he wears a 'ten gallon hat,' the same as all of the cowboys, and he does his work daily like any other ranch hand. Regular feller, that's what we call him, 'regular feller!'"

About Town and Country

Wear a poppy on Armistice Day in memory of those who made the supreme sacrifice in the Great War.

Old Time Masquerade Dance Oyen Theatre, Friday, October 31. Three piece orchestra.

Kirkwall Church will hold a chicken supper on Friday, November 7. Supper served from 6 till 8, concert afterwards. Admission 50 cents, children half-price. Ladies contributing, free. Everybody welcome.

Ben Novlanusky, recently of Stanmore, Alta., has rented the Cooper Trading Co's premises and will open a general merchandise business there on Saturday, November 1.

Mr. and Mrs. W. J. Affleck, of Excel, spent the week-end visiting at the home of the former's parents.

Tom Bomb, who was recently admitted to Oyen Hospital, is reported to be doing nicely.

Do you know any items of news? We are always glad to get them.

Watch for large posters of G. H. Loughhead's clearing auction sale Friday, November 7, at 1 p.m.

There will be a dance in Excel school, on November 7.

Mr. Farmer, who pay freight charges on screenings when you own have your grain cleaned at The United Grain Growers for one-half cent per bushel.

Threshing operations practically came to a close at the end of last week.

Mr. and Mrs. C. L. Wilson of Sibbald, were the guests of Mr. and Mrs. C. L. Dunford last Monday night. On their return to their home the following day they were accompanied by master Warren Dunford, who will spend the remainder of the week with his grandparents.

LANFINE LOCALS

The regular meeting of the W. I. was held in the home of the secretary Mrs. Fred Lumby. Despite the very wet day, a good number were present. In absence of the president and vice-president, Mrs. W. M. Sanders was appointed chairman for the meeting. After the regular business, Mrs. A. L. Orvis delivered an entertaining talk on the subject "Children in the Home" which was listened to with great interest. Roll call followed, each member answering with brief remarks on the subject of Mrs. Orvis' talk.

The next W. I. meeting will be to be held, weather permitting, at the home of Mrs. Wiley on November 6.

Lanfine ladies have given two teas in honor of the ladies who have recently come to live in Lanfine. Mrs. Culp, wife of the C.N.R. agent; Mrs. J. Naismith, Pioneer Elevator manager's wife; Mrs. Knight, National Elevator manager's wife and Miss McKenzie our new school teacher. The birthday of Mrs. John Sanders was celebrated at the same time.

The ladies gave a surprise party to Mrs. Frederick and before leaving gave her a parcel which someone saw in her cup after tea. The good wishes of all will go with Mrs. Frederick and family when they leave this community.

In Lighter Vein

Keep that school girl complexion—out of the rain.

If only 10 per cent of us are crazy, as that professor says, how does he account for the fact that we spend more money for new cars than for new houses?

Judge (to victim of hold-up) While being relieved of your valuables, did you call the police?

Victim—Yes, your honor, everything I could think of.
